

29 JULY 2019

## **2019 FIA DISASTER RECOVERY TESTING OVERVIEW**

### Effective Date

---

September 14, 2019

OneChicago will be participating in the 2019 FIA Disaster Recovery Testing on Saturday, October 26, 2019.

Prior to the Disaster Recovery Test date, the exchange is hosting a mandatory pre-test connectivity screening on Saturday, September 14, 2019. If a firm does not pass the connectivity screening on Saturday, September 14, 2019, there will be a second connectivity screening on Saturday, September 28, 2019. The connectivity screenings will be held between 8:00 a.m. and 10:00 a.m. Central Time on each date. For a firm to participate in the 2019 FIA Disaster Recovery Testing they must first participate and successfully connect on one of the two dates in September 2019.

While this DR testing initiative is optional, OneChicago highly encourages its users to participate to ensure access to OneChicago markets under any potential business continuity conditions.

Please take note of the testing details below.

### Key Information

---

<b>Test</b>	<b>Date and Time</b>
<b>Connectivity Screening #1</b>	Saturday, September 14, 2019 8:00 a.m. – 10:00 a.m. Central Time

29 JULY 2019

### Registration

---

To facilitate testing on test day, please register through the FIA test registration portal <https://secure.fia.org/bcp/test-registration.asp>. This will allow you to register for both the OneChicago Disaster Recovery Connectivity Test (September 14, 2019 or September 28, 2019) and the Disaster Recovery Test (October 26, 2019).

### OneChicago Connectivity Test

---

**Saturday, September 14, 2019 or Saturday, September 28, 2019**

#### Objectives

- Successfully establish a TCP connection to Delta1 FIX OES/MDS.

#### Testing Guidelines

- Firms should ensure connectivity using their regular assigned application ports for both FIX OES and FIX MDS using the hosts provided below:

Order Entry/Market Data	Hosts
Delta1 FIX OES	oes.site-2.onechicago.com
Delta1 FIX MDS	mds.site-2.onechicago.com

### FIA Disaster Recovery Testing

---

- Full guidelines for the FIA Disaster Recovery test will be provided at a later date.
